

DTE[®] AXIOM[™]

Time Entry Redefined

"The DTE Axiom product is an impressive advancement in time entry performance, ease of use and functionality. The technical design and infrastructure provides a significant step forward in facilitating the time entry process."

—ROSEANNE OSTRANDER
APPLICATION
SUPPORT MANAGER,
SKADDEN, ARPS, SLATE,
MEAGHER & FLOM LLP

Today's legal landscape can be fast and furious.

Does your firm have the tools you need to keep up the pace?

In a busy law practice, accurate and efficient time entry is essential for ensuring client satisfaction and profitability.

You need a time entry system that delivers power and flexibility without the frustrations of slow Internet connections, downtime, and network traffic. DTE Axiom's fast, reliable timekeeping technology will meet the needs of everyone in your organization.

There is no need to give up performance and security in exchange for mobility. DTE Axiom is accessible from anywhere in the world via laptop, mobile device, network, or even a flash drive. There are no traditional license fees or maintenance charges; just one low monthly active timekeeper cost. Industry standard encryption keeps your firm and client data safe and secure.

You are always working to satisfy clients quickly. DTE Axiom helps you keep up the pace by giving you the tools you need to work faster, smarter, and more productively. What are you waiting for? DTE Axiom is ready to get you up to speed.

- Attorneys and legal staff will appreciate that DTE Axiom is always available. Being able to record time accurately without waiting increases billable time, contributing directly to the bottom line.
- Financial officers can leverage DTE Axiom's independent time entry system to balance workloads and lighten the load on accounting systems and financial staff.
- IT Administrators will value an Internet-based application that reduces infrastructure overhead and maintenance. DTE Axiom easily accommodates thousands of timekeepers on a single server.

"To roll out world-wide took, probably, 2-3 days per office for hands on training."

—SWEN NIELSEN
FINANCIAL SYSTEMS
MANAGER,
SQUIRE SANDERS &
DEMPSEY L.L.P.

Get Up to Speed Quickly

The benefits of using DTE Axiom's powerful technology to increase revenue and lower costs for your firm are clear. Even better, you can deploy the software in just minutes. Initial configuration and implementation typically take just one or two days, even in the largest law firms. Rollout is accomplished easily from a browser, Enterprise Push, or even from a flash drive. Because DTE Axiom runs on your existing IT infrastructure and requires no database installation on client PCs, you can begin enjoying unparalleled performance, usability, security, and continuity in less than a week.

Learning DTE Axiom is almost as effortless as deploying it. Timekeepers will recognize the familiar

Protect Information Inside and Out

With ever-increasing threats to security in today's data-dependent business landscape, safeguarding client and firm information is of utmost importance. DTE Axiom protects your data against being compromised by both outside and inside threats. Industry standard 128-bit Blowfish technology ensures that your firm and client data is secure.

- An optional HTTPS connection enables timekeepers to work securely from home, Wi-Fi hotspots, or inside client networks.
- Ethical walls features ensure that sensitive information is available to only approved staff.
- Multi-level, multi-tiered security protects client information within the firm.

In a constantly changing business landscape where security breaches are growing increasingly commonplace, DTE Axiom helps you to be vigilant and protect your practice.

To take DTE Axiom for a test drive, visit www.aps-soft.com or contact Rhonda Woerl at rwoerl@aps-soft.com or 800.783.9231 ext. 118.

Track Time without Wasting Time

With DTE Axiom, your staff will no longer suffer the frustrations of busy networks, downtime, or slow Internet connections. Timekeepers can track, review, and submit time entries using the Internet or your Intranet without interrupting their workflow. Built-in TimeSaver timers make it easy for you to capture more time as you work.

- Instantly access the Internet-based time entry system regardless of connection state, independent of browser controls and network bandwidth
- Create multiple TimeSavers with unique client, project, and user-defined codes for separate tasks
- Use nicknames, user-defined codes, templates, Auto-Fill, and Recent Entries to simplify repetitive tasks and speed data entry
- Create time entries manually or with TimeSavers that automatically update your DTE calendar
- Easily identify and access unbilled blocks of time

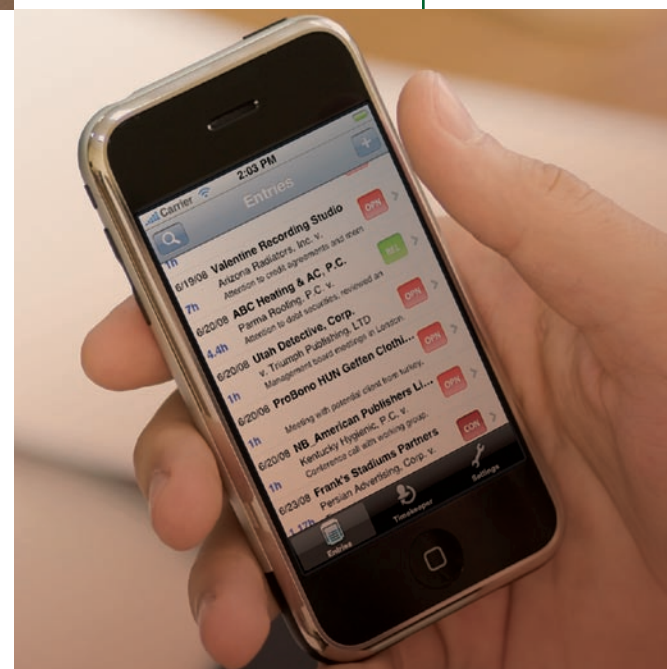

The productivity-enhancing features of DTE Axiom allow your timekeepers to focus their attention on the primary objectives of your firm—ensuring client satisfaction and maintaining a strong bottom line.

Take Control of Costs

DTE Axiom works with your financial software to simplify administrative tasks and reduce overhead costs. Customizable HTML report formats give timekeepers fast and easy access to billable and non-billable time and expenses. Practice managers can quickly review case and client billings using workgroup reporting. Customized Crystal Reports satisfy administrative and management requirements.

- View time and expense entries in daily, weekly, or monthly views
- Generate month-end accounting reports with no impact on time entry
- Seamlessly meet client and eBilling requirements
- Only a single server is required, regardless of the size of your firm or number of offices
- Simple active timekeeper licensing with one monthly subscription cost is based on actual users

Timekeepers will bill more time with DTE Axiom's patent-pending on-demand time entry system. The system is easy to learn and cost-effective to implement and maintain. Your subscription includes free software upgrades and unlimited technical support.

they go on a secure flash drive or with DTE InHand for Blackberry Smartphones or iPhone. The ease of rollout and usability means that you can begin tracking your time faster and better in just a matter of days.

SECURITY

"DTE is the best time entry system I have seen in the industry. You can quote me on that. It isn't just the product, but the support, which is equally important and equally ignored by most others."

—ERIC J. TUOMIKOSKI
SR. ACCOUNTING/FINANCIAL
SYSTEMS ANALYST,
KUTAK ROCK, LLP

It's a Given—Timing is Everything

DTE Axiom has changed the time entry paradigm for legal professionals. To learn more about how you can implement completely customizable time entry validation to meet your specific requirements, with the security, portability, and usability you need in a time entry system, we invite you to visit www.aps-soft.com and download our informational white paper, "Making Time Entry Profitable: Increasing Efficiency through Availability."

About Advanced Productivity Software, Developers of DTE Axiom

Since 1990, Advanced Productivity Software (APS) has been dedicated to developing highly scalable time-tracking software to meet the needs of today's law firms. Hundreds of thousands of users worldwide depend on APS software solutions including DTE Axiom for time entry, RollCall for staff time and attendance tracking, and LookUp Precision for online usage tracking, cost recovery, and password management.

Although law firm business and technology needs have changed dramatically through the years, one thing has remained constant—our commitment to meeting our clients' needs while ensuring business continuity, software performance, connectivity, and functionality. This intense focus allows us to deliver the most comprehensive timekeeping software available. APS software products are installed in law firms worldwide, including more than half of the AmLaw 100 firms.

To find out more about how Advanced Productivity software can help you and your firm meet strategic objectives and achieve best in class status, please give us a call at 800.783.9231 or visit us at www.aps-soft.com.
